

Hello, friend! We hope you enjoy our kit! Inside you'll find:

1. An original coloring storybook
2. A creative activity packet
3. A chapter book

The coloring book, titled *Flying New* is a completely brand new story just for you. Read our story about Fiona the tree swallow and let your imagination fly while coloring in the pages.

Our activity packet is composed of several different themed activities. The first few pages center around *Flying New*, while there are other activities based on different themes after them. There are no right or wrong answers regarding these activities.

We also strive to relay our love of reading to you through a donated chapter book. These books are of wide variety, and each kit has a different book with a different story in their pages.

There are no limits on your creativity and freedom for this kit! We hope you have fun with it!

Love,
OutWrite and Graphically Empowered
